students\*\*

NOW ACCEPTING ENROLLMENT  
Qualifying students must be  
enrolled in 3rd, 4th or 5th grade  
for Fall of 2024.

Arizona Kids Build is a program that started in Phoenix to teach kids awareness of their desert environment and how to design and build a functional shelter that responds to its surroundings. Architects teach the program, show participants how architects work, and explain how someone becomes an architect. At the end of the camp the students design and build their own model shelter that they can take home with them. It's a fun way for kids to be creative, appreciate the environment that they live in, and learn about a potential career in a rewarding field.

## DAY 1

How Architecture Makes You Feel  
Buildings And Our Environment

## DAY 2

How Architectures Communicate  
Let's Build It!

**LAST DAY TO REGISTER IS JUNE 24**
